MedBiquitous 2021 - Save the Date!

We are excited to announce that the MedBiquitous annual conference is confirmed for Sept. 20-21, and will be 100% virtual.

Details regarding the agenda and registration will be shared soon. Please visit <https://medbiq.org/medbiq2021> in the coming weeks for updates.

MedBiquitous Call for Proposals

To celebrate the return of the MedBiquitous annual conference and to launch a new method of engaging with the community, we will be offering an open call for content for multiple MedBiquitous platforms.

The call will be used primarily to offer the community an opportunity to present content they are passionate about at either the annual conference or the monthly webinars. We will also be offering a variety of new ways for the community to interact over the coming months, and we will be looking for content for those opportunities as well.

Information on how to submit your proposals can be found [here](#).

Join MedBiquitous Working Groups

The MedBiquitous Activity Report and Professional Profile working groups recently launched and are still accepting new members. If you would like to participate in work related to either of these [data standards](#), please contact medbiq@aamc.org.
