

February 2020

The MedBiquitous® Community Connection newsletter shares ongoing activities for community members and features updates, as well as a list of future engagements. For more information about MedBiquitous, please visit medbiq.org/about_us.

MedBiquitous Summer Internship

The MedBiquitous program is recruiting for a paid summer 2020 internship.

This Knowledgebase Management internship is based in the AAMC's medical education department in Washington, DC. The internship will span from June 1st through early August (10 weeks), and the internship is paid at a competitive rate.

This internship will provide the selected candidate with the opportunity to practice technical skills from information science and knowledge management, and experience the collaborative process required to run a national standards organization that supports quality improvement and lifelong learning in the health professions.

Interested in Presenting a Webinar Topic for MedBiquitous Community Connection?

Proposals may be sent to medbiq@aamc.org with the following details:

- Title of presentation
- Speaker(s) name, title, and institution
- Current data standards efforts
- 2-3 learning objectives and/or goals for webinar attendees
- Short description of presentation (200 words or less)
- Short description of speaker(s) background (200 words or less)

MedBiquitous 2020: A Shared Vision for the Future

Our recent Call for Proposals garnered an exciting range of topics and speakers for the MedBiquitous Annual Conference, which will be held June 8-9 in New York.

MedBiquitous 2020 is a valuable opportunity to network with colleagues from around the globe, examining how digital technologies can promote continuous improvement and better outcomes across the continuum of health professions education.

Registration opens soon! Please [visit MedBiquitous 2020](#) for evolving details about the conference. MedBiquitous 2020 will be held in conjunction with the Information Technology in Academic Medicine conference, sponsored by the AAMC Group on Information Resources (GIR).

Work Groups

MedBiquitous develops technical guidelines regarding key infrastructure technologies in the health professions. [Work groups](#) collaborate with the goal of bridging technology integration and coordination among entities and systems. Interested in participating? Email medbiq@aamc.org

Wide World of Standards: American Council on Education Blockchain Initiative

Earlier this month, the American Council on Education (ACE) announced funding from the US Department of Education to support an initiative to explore blockchain's use in education. The goals of the initiative are to investigate how blockchain can empower individual learners while improving data flow between educational contexts. Read their [press release](#) to learn more.
