

Tracking Progression to Competence

MedBiquitous 2014

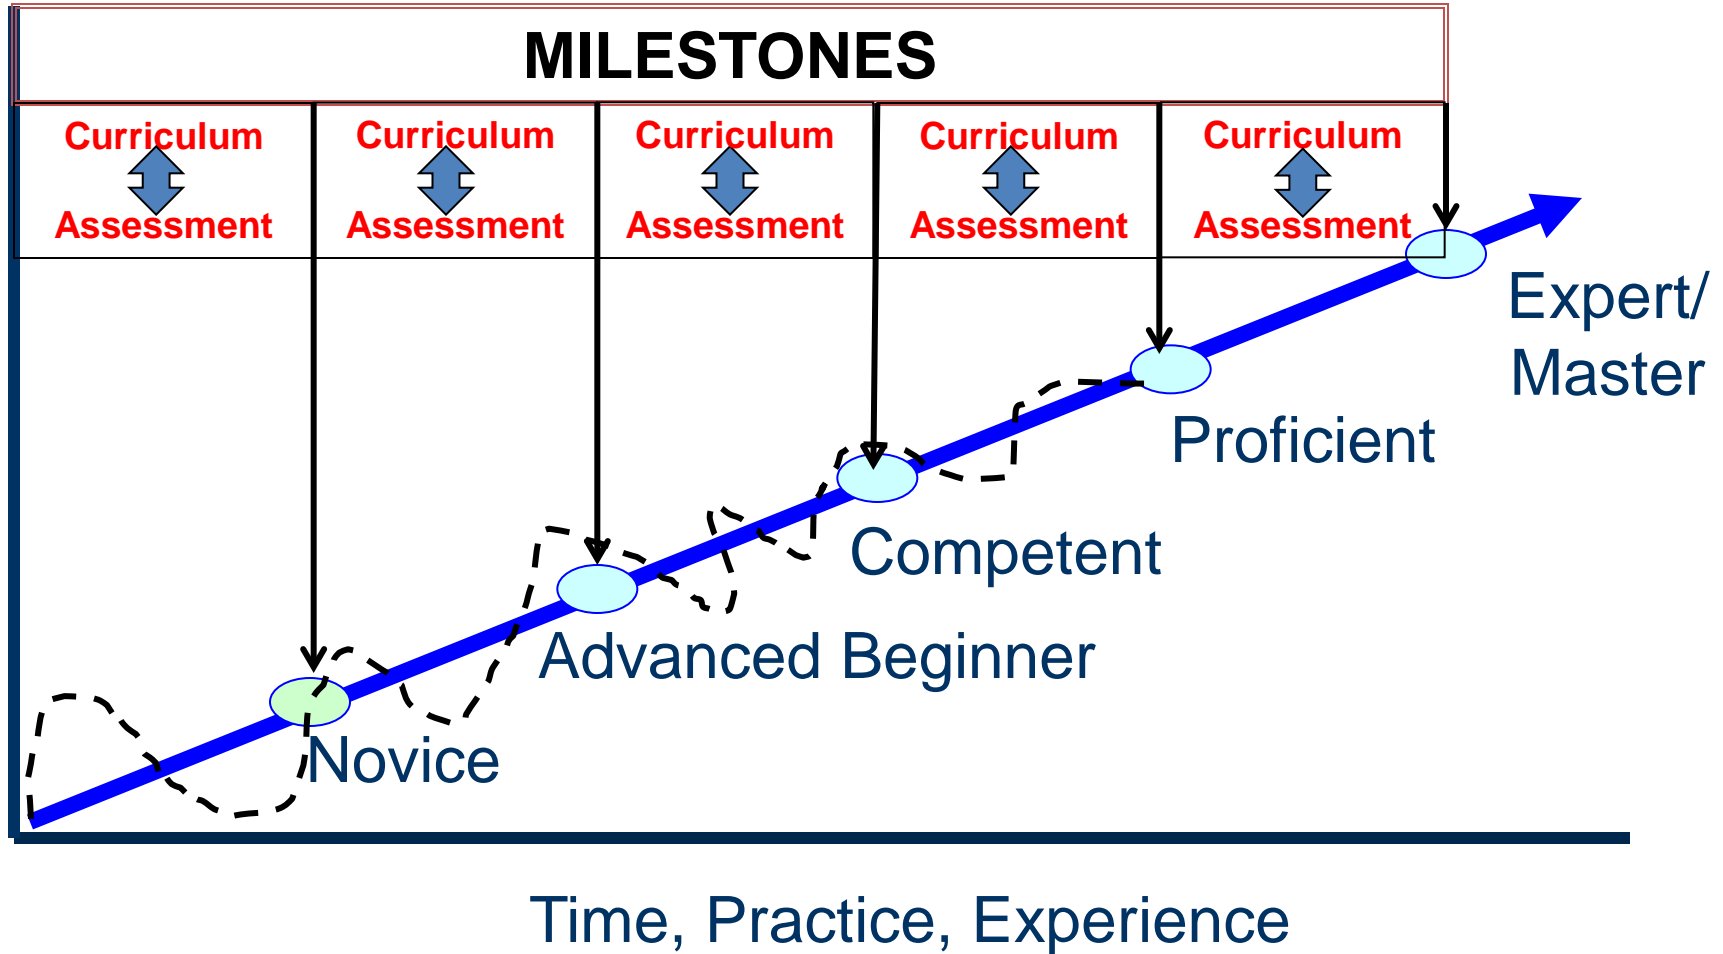

Eric Holmboe

Senior Vice President for Milestones
Development and Evaluation,
ACGME

Tim Willett

Director of R&D
SIM-one

Dreyfus & Dreyfus Development Model

Competent

Attribute of a person

Competencies

Abstract statement of ability

Milestones /
Performance
Frameworks

Steps along the path

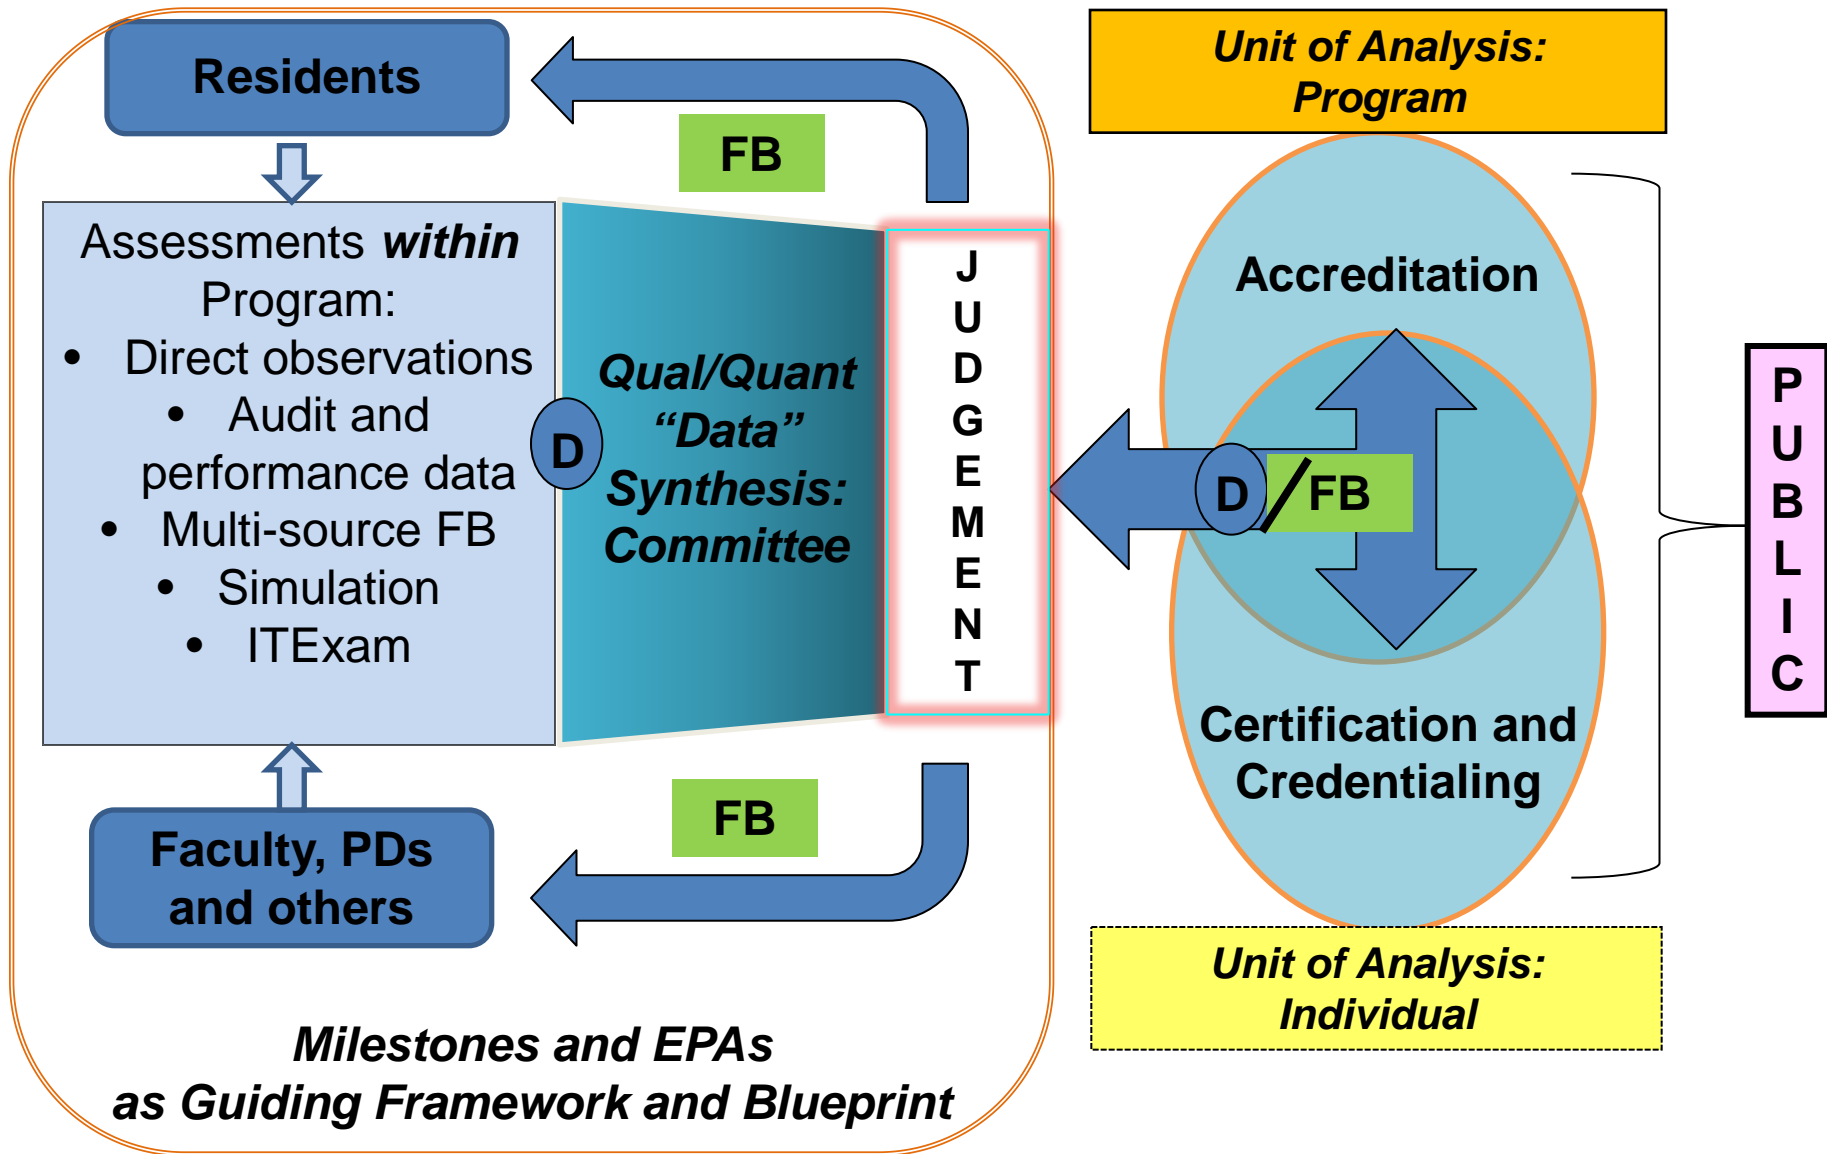

Entrustable
Professional
Activities

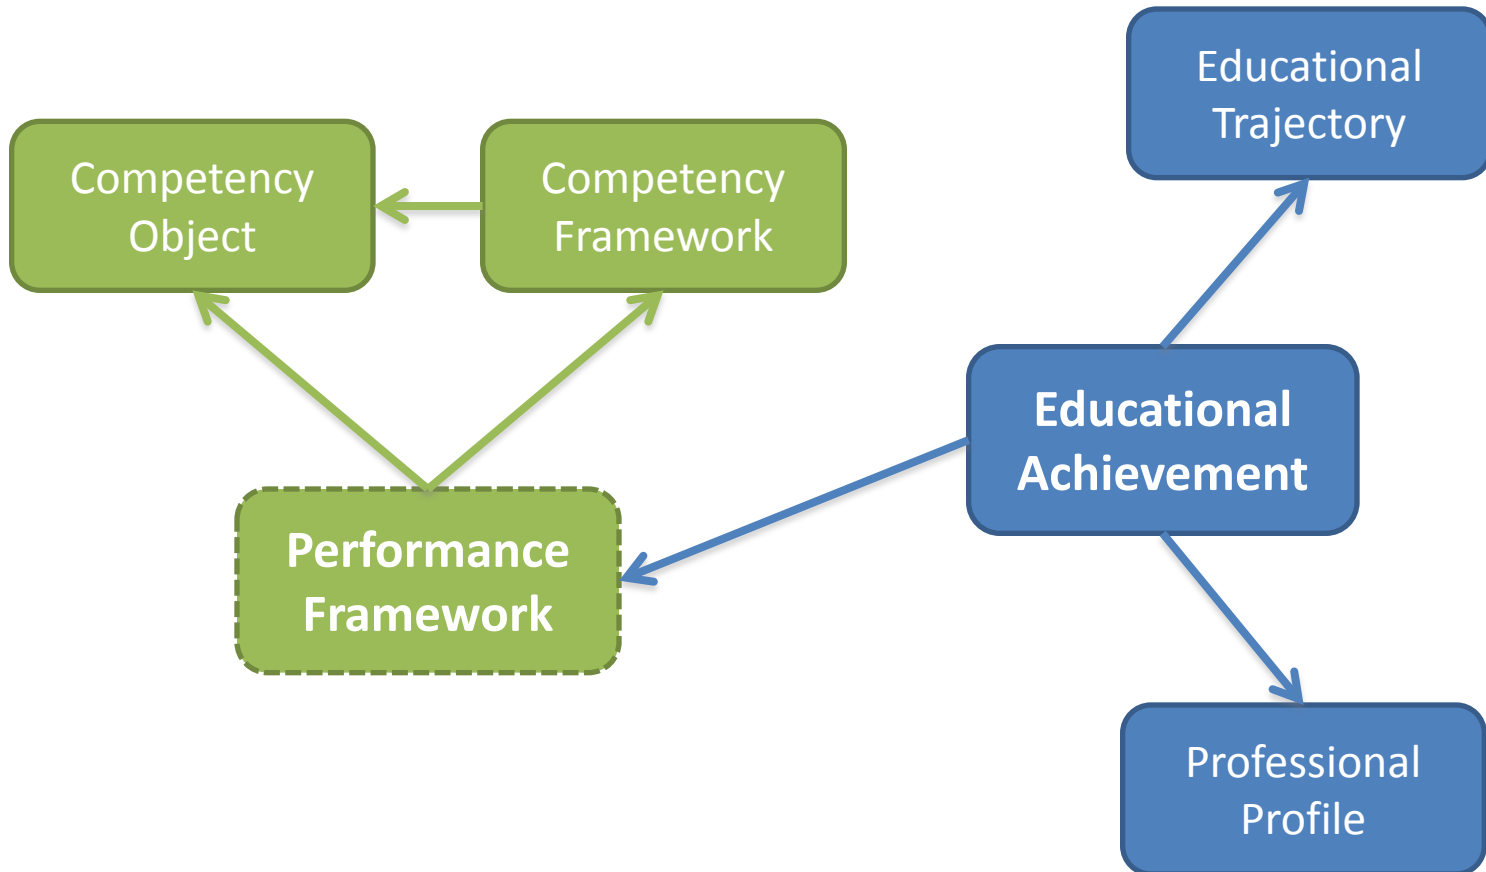

Things a practitioner does,
integrate multiple competencies

Community Goes Wild Over Milestones

The Assessment "System": Data Flows

So...

What are you doing?

What is working? What isn't?

What challenges/barriers?

Relating competencies, milestones, EPAs?

What technologies?

How are you capturing data?

How are you tracking a learner?

How are you aggregating it?

How are you tracking a cohort?

How is data used to make decisions?

How is this going to make things better?

Thank You and Questions
